- Experienced appraisers with advanced, ongoing training in heavy equipment

Estimates made efficient for you

- Online tool for instant assignment to the nearest appraiser
- National appraiser network – PDA does it all
- Mitchell estimating platform helps ensure precise estimating

Worry-free support for you and your customers

- Integrates with PDA Claims Management System
- Fully supported by PDA Customer Support
- Performance audits ensure compliance with your guidelines

Highly Trained Appraisers

The PDA Heavy Equipment Training School is the nation's only provider of classroom and hands-on training for heavy equipment appraisals. During training, appraisers learn consistent and accurate ways to write estimates on tractor trailers, school buses and almost any kind of OTR heavy equipment. The week-long course helps PDA appraisers become more than just technical experts. They also learn to improve the overall experience for our clients.

Specialized Expertise for Specialty Equipment

The complexity and expertise required to estimate damage varies with the type of equipment involved. While estimates for tractor trailers are typically straightforward, equipment such as airplanes or oil rigs requires a higher level of expertise and a greater attention to detail. Don't trust your equipment with a generalist. PDA appraisers have the specialized expertise that you need for your specialty equipment to help you save time and money.

Be sure to assign your claim online through Web Assign or the Client Portal for instant assignment to the nearest PDA heavy equipment appraiser anywhere in the United States.
